AWS Certified Solution Architect Professional and Full-Stack Developer with a decade of cross-industry experience in business operations and management. As a team-oriented professional driven by ethics and accessibility, I excel at leading teams to exceptional problem-solving solutions. Eager to advance my career in AWS cloud solution architecture, I bring a strong background in business operations and technology. I am highly motivated to contribute to innovative cloud solutions for the success of the company and the team.

Skills:

AWS (Amazon Web Services)
- AWS Cloud Computing & Architecture, Deployment & Management, Security & Compliance, Billing & Cost Optimization, Cloud Monitoring & Troubleshooting.

Computer Languages
- JavaScript (ES6), EJS (Embedded JavaScript), HTML5, CSS3, Python, TypeScript.

Databases
- PostgreSQL, MongoDB, Mongoose.

Libraries & Frameworks, others
- React, Express.js, Node.js, Bootstrap, Django. RESTful Routing, JSON, API (Git/Github), VSCode, Heroku.

Interpersonal Skills:

Spoken Languages English(Fluent), Russian(Fluent), and Georgian(Fluent).

AWS Cloud Computing Projects:

Serverless Chat Web App - Leveraging Various AWS Services.   08/2024

Developed a serverless chat web application using AWS services:
S3 for static hosting, Lambda for backend processing,
DynamoDB for data storage, and Cognito for user authentication.
Utilized IAM for access control, API Gateway for API management and SDK generation,
CORS for security, and CloudFront for improved performance.

AWS S3 bucket & AWS Codepipeline   07/2024

Continuous Deployment using AWS CodePipeline and S3.
The pipeline pulls the code from GitHub, and deploys it to S3.
The code is deployed and hosted in S3.

BlackJack-GitHub | **BlackJack-Web** Deployed on AWS - EC2 | Solo project   11/2023

Online browser-based Blackjack card game, tailored for one player competing against the dealer.
- Utilized Python3, JavaScript, HTML, CSS.
- Implemented the Flask web framework with server-side Python3 to manage game logic and handle responses.
- Applied JavaScript for dynamic interactions (including Ajax for asynchronous communication).
- Built the user interface - UI with HTML for structure, and used CSS for styling.
- Utilized Git control during the production with frequent commits until deployment.

Software Development Projects:

Mybooksy-GitHub | **Mybooksy-Web** | Full-Stack MERN application | Group project   09/2022

A book web app to find reviews on particle books or to buy your next read.
User also can post their books and add an affiliate link for extra exposure.
- JavaScript, CSS, HTML, React, Express.js, Node.js, MongoDB, Mongoose, Postman.
- Full-stack MERN application with full CRUD capabilities.
- Collaborated with a team of 4 software engineers in a 1-week sprint in an agile environment.
- Utilized Node.js, Express, Mongoose, and MongoDB to build the backend.
- Implemented React framework to build components and pages.
- Utilized Git control during the production with frequent commits until deployment.

[KIBI-GitHub](#) | [KIBI-Web](#) | Full-Stack MEN application | Group project   08/2022

E-commerce online store to purchase various quality keyboards and keycaps.
Full-Stack MEN web application that features 7 RESTful routes with full CRUD capabilities.

- JavaScript, CSS, HTML, Express.js, Node.js, MongoDB, Mongoose, Postman.
- Collaborated with a team of 3 software engineers in a 1-week sprint.
- Used Mongoose to define schemas for MongoDB collections for a database.
- Implemented EJS template literal along with CSS3 and Bootstrap to provide enhanced UI.
- Utilized Git control during the production with frequent commits until deployment.

Professional Experience:

NS Global Commerce LLC | **Founder** | New York, NY   08/2017 - 12/2021

- Implemented new consumer service management tools, decreasing order-handling time by 50%.
- Managed website overhaul and rebranding, including the addition of e-commerce.
- Built customer loyalty through customer service excellence.
- Grew digital outreach with a 20 % increase in revenue.

Sishodia Law, P.C | **Paralegal** | New York, NY   08/2016 - 08/2017

- Coordinated Real Estate Law Firm operations to serve 100 + clients, including maintaining
- Detail-oriented database records to ensure timely and appropriate care was given to all clients.
- Handled quick-book entries for accurate accounting.

Sunny Way LLC | Co-Founder | Florida   01/2015- 05/2024

- Direct all activities related to dispatching, routing, and tracking vehicles.
- Oversee all fiscal responsibilities, including budgeting and payroll, and directing budgets to ensure financial performance objectives are achieved.
- Excellent strategic and analytical thinking, problem-solving, and rapid decisions.

AWS INC | Cloud Support Associate | Virginia   06/2024 - 08/2024

- Completed over 30 Bottlenose labs focused on troubleshooting AWS services, gaining hands-on experience with a wide range of AWS tools and environments.
- Trained on effective troubleshooting techniques for AWS services, enhancing problem-solving skills and technical expertise.
- Participated in TechU training programs covering AWS services, Linux, security, and more, developing a comprehensive understanding of cloud infrastructure and operations.
- Gained expertise in diagnosing and resolving issues in cloud environments, including network configurations, service integrations, and security best practices.

Education:
Northeastern University | M.S. | Computer Science - Align program   10/2023 - 05/2025
General Assembly | Remote | Software Engineering Immersive   07/2022 - 10/2022
Women's Empowerment Institute | Remote | AWS Cloud Computing   04/2023 - 06/2023

AWS Certified Cloud Practitioner validation number: 8V7VQWW28BVE1HKS.
AWS Certified Solution Architect Associate validation number: 9d36e4fb9dfe4bde8b930f3b1ed33988.
AWS Certified Data Engineer - Associate validation number: 9461d5d2d1a84d999c772db77c6acb12.
AWS Certified Solution Architect Professional validation number: a8f8d4a8380b4ad8844612a022a86add.
